WHEELING, MARCH 20, 1889.

Meant that is being said about the new salt trust is to be taken cum grano salis.

Now Brer Reid will eat frogs and be gay. Bung shure, Mongeeer, polly-woo argot?

Mr. BAYARD goes south with a fresh paper collar and three cases Pom. Sec. extra dry—whatever that may mean.

WHEN Mr. Cleveland passed through Washington on his way to Florida, the event caused no perceptible ripple. Can it be because Mr. Cleveland has no longer anything to give?

UNCLE JERRY RUSK is a growing favorite in Washington. It is not believed there that he intends to turn the whole city into a propagating garden for the culture of dock weed as a cure for Congressional malaria.

In about a month we shall have with us the new British Minister, Sir Julian Pauncefote (probably pronounced Panchyfoot or, perhaps, Stubbyfoot), who will endeavor to avoid the example of his immediate predecessor, who fell so ingloriously into the St. Julien.

APPLICANTS for liquor licenses in Pittsburgh have to show a wonderfully clean bill of health, or down they go. So it should be everywhere. In Wheeling all that is needed is the cost of the license and somebody to go on a bond which everybody knows amounts to nothing.

"The abolition of the Internal Revenue," says the New York Press, "must be part of the Republican policy of the future." This is what the INTELLIGENCER has been trying to beat into the head of the said Republican party, which sometimes doesn't learn as fast as it should.

THIRD ASSISTANT POSTMASTER GENERAL HAZEN has held and filled the place before. He worked hard to bring about two-cent postage. It may be his good fortune to be identified with one-cent postage, for which the country is ready. The next thing is for Congress to find out this important fact.

SOME of the Democratic newspapers have advanced so far as to admit that there are signs visible to the naked eye of President Harrison's intention to be President. Well, this is certainly much better than farming the Presidency out on shares, one half to the Democratic politicians, the other to the Mugwumps.

A CERTAIN current of alleged witicism in the press runs on the presumption that there is a moral weakness in every good looking young woman who carries her living by operating a writing machine. Constant hammering on this theme may close to needy girls one of their best avenues to a living. It isn't fair and it is very silly.

THE quickened interest of the British colonies in the cause of Ireland since the Times and Government collapse may well make an impression on the home authorities. The English speaking peoples of the earth are substantially of one mind on this subject—always, of course, excepting those Englishmen who can't learn a lesson as plain as A B C.

DEMOCRATIC Senators are remarking that President Harrison understands much better than President Cleveland did the art of getting along with Senators of his party. There may be something in having sat in the seat of a Senator; and something in being at the beginning of a term, when Senatorial hope has not yet given to Senatorial disappointment.

POSTMASTER GENERAL WANAMAKER, sharing the fate of his predecessors, is already dubbed "General" Wanamaker. Of course the Attorney General will catch it likewise. Isn't it about the worst taste, not to say funkyness, to hitch military titles onto purely civil officers? Mr. Attorney General, Mr. Postmaster General, in neither case "General."

A Clergyman on Prohibition.

The Rev. Cyrus Cort, pastor of the Reformed Church, Greencastle, Pennsylvania, thus expresses himself with regard to prohibition:

As long as I hold my present orthodox views respecting the inspiration and integrity of God's word, I must regard prohibition as unscriptural and wrong in principle. I could not consistently impose the interests of his country in that part of the world will be safe. Mr. Reid has the fortune to enable him to live as other Ministers live, which is far beyond the salary he will receive.

The appointment goes beyond the personal consideration. It recognizes what the party press is to the party, the most potent of its forces. All the stumblers and all the managers put together do not equal in power for good one week's work of the party press. The stumblers and the managers keep an eye on politics in campaign time; every day the press is in the field with argument, persuasion, attack, defense.

The honors of a well fought fight rarely fall in great measure to the press. The politicians are even keener after the

## ENGLISH AS WATTS WRITES IT.

A Letter Alleged to Have Been Found in Washington.

A friend of the INTELLIGENCER sends the following, which he alleges was picked up in the back yard of the White House immediately after the waste basket belonging to the President's desk in his private office had been emptied. It is written on a scrap of paper and is possibly the original draft of Mr. Harrison's response to General Watts' refusal to accept a recent invitation:

General C. C. Watts, U. S. Attorney, etc.

Sir—You are hereby dismissed from your office, because of the wretchedly bad English used in your telegram to Attorney General Miller. You say: "I know of no act of mine, official or otherwise, which would justify me." etc. The word being in here superfluous and incorrect, and assigned misplaced. How much better to say: "Which, in the absence of assigned cause," etc.

Again you say: "Which would justify me to tender my resignation," when you should have said "in tendering my resignation," and "I decline to make my resignation," instead of "offer or tender my resignation."

Again, if the President wants me to vacate, etc., should be "if the President desires." Want implies a need rather than a wish.

Being determined to reform the grammar and rhetoric, as well as the morals of our official correspondence, I hope you will graciously yield to the inevitable, and thus help on a good cause.

B. HARRISON, President.

Deafness Can't be Cured

by local applications, for they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed, it causes a humming sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. It is not the case of the ear, but of the tube, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by taking HENRY'S CATARRH CURE.

How Postmaster Hill of Texas, Got \$15,000.

The telegram of the drawing of the Louisiana State Lottery, announced that Manor, Tex., had fallen heir to a portion of the \$600,000 prize. The lucky holder of part of the ticket was Postmaster John E. Hill, a deserving man. Although a Democrat (he is father having been killed while serving in the Confederate army), Mr. Hill has the unanimous endorsement of the citizens of Manor for re-appointment. With part of the money he drew last month he has bought a farm of 400 acres for \$10,000.—Austin (Tex.), Statesman, Jan. 17.

Dr. Henry's Remedy for Ladies.

Ladies suffering from nervousness, sleeplessness or any nervous trouble, and immediate relief can be obtained by using Dr. Henry's Catarrh Cure, Beef and Iron. Sold by all druggists.

BENJAMIN'S PILLS act like magic on a weak stomach.

Few corporations have souls, but most of them are well heeled.

This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by the majority in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion and last the famous Dyspepsia and install instead Euphony. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1 per bottle by Logan &amp; Co., druggist.

It is curious that the more strained diplomatic relations become the less clear is the political atmosphere.

Contagious Blood Diseases.

Ulcers, sores, pimples, itch, rheum, etc., are evidences of contagious blood disease. It is manifestly a duty to eradicate blood poison from the system by a use of R. B. B. Botanic Blood Purifier, enabling the new places to heal, and thus removing all possibility of other members of the family becoming likewise afflicted.

J. H. Outlaw, M.D., N. C., writes: "I had running sores on my shoulders and arms. One bottle R. B. B. cured me entirely."

J. L. Johnson, Belmont Station, Miss., writes: "My wife had a running sore on her head and body was covered with sores, and my ears were full of pus. I used R. B. B. and my ears were clear, and my wife's sores were healed."

J. H. Kline, Hutchinson, Texas, writes: "My wife had a running sore on her head and body was covered with sores, and my ears were full of pus. I used R. B. B. and my ears were clear, and my wife's sores were healed."

J. C. Roseman, a prominent merchant of Greensboro, Ga., writes: "I know of several cases of blood disease speedily cured by R. B. B. Two bottles cured a lady of ugly scrofulous skin."

W. C. Hinchman &amp; Co., Macy, Ga., writes: "R. B. B. in curing my blood disease effected one of the most wonderful cures that ever came to our knowledge."
